

President's Corner

January 2019

Here we go into a new year. First of all I would like to thank everyone who helped keep the club going over the past year. We are looking forward to a busy year with state shoots like the Midwestern, and all the others. This is our 84th year and a lot of good people have put in a lot of work to keep us around this long. I would like to see us around for many more years to come. In order to do this we need help from our newer and younger members, along with our older members. If we all work together we can make our club great and keep us going for many years to come. For example, if you see the cardboard is shot up on a target you are shooting, replace it. We are also starting to repair the indoor targets. If you shoot through one, let a board member know so it can be repaired. We ask that you do your best to not tear up the wall as you are getting your arrow out if you do shot through a target. We do have someone who salts the walkway but with the winter weather please watch for ice, and remember the lock sometimes freezes up, so if you can carry a lighter to heat the key that can be very helpful. Please respect the club and turn down the heat, turn out the lights, and lock the door when you leave. This helps to keep costs down and offers safety for all members. With safety being the #1 rule inside and out; please use proper range rules and don't let kids move the indoor targets. Leagues are starting soon so be sure to get signed up if you want to participate. For our new shooters be sure to check your bows and arrows often to make sure they are in good repair. I know I preach a lot about the rules and regulations but I want everyone to have a good time and be safe. If we can all work together to care for and respect the club and its rules we will be around for years to come. Thanks for all of your support over previous years and years to come!
