Hi Folks

Summer has finally come.

We will be starting our Summer League June 1. It will run for 10 weeks. We will shoot two arrows per target for 14 targets. The course will be posted in the pavilion on the bulletin board next to the box for the scorecards. It can be shot any time between Sunday and Friday for the week. I plan on shooting Monday at 6:30 most weeks if you want someone to shoot with. The fee is \$60 and can be paid by putting the fee in an envelope in the payment slot in the indoor range. Be sure to mark it clearly with your name(s) and league fees.

State Target is June 1. There will be about 90 shooters. We will need kitchen help because all the shooters break for lunch at the same time and have an hour to eat and get back on the line. We will need 6 to 10 people between about 10:30 and noon.

The Aiming for a Cure shoot is June 14th and 15th. Be sure to come out and support a good cause.

Thank you to all of the people who helped pour the handicapped parking slab. It went really well. All we have left to do is bring in some fill dirt and spread it. We will wait to gravel the approach till next year. We will finally be able to close out our building permit.

So anyway, good shooting and I hope to see you out there.

Carl Mally

JOAD Club Status Update

Warriors, Sunday is the ISAA State target championship. It will be held at our club grounds and starts at 0900. You should be there at 0815 to register to get registered and situated. Remember these things: Have fun, wear sunscreen just don't put it on yourself, have at least 8 arrows, gnats are really bad, bring a chair, awnings are nice, binoculars are good. Have a good sight setting for your two shortest distances because you don't get practice arrows at those distances. Wear a Club shirt! Shoot your best! I will be in Utah this weekend so other coaches will be your contacts. As always, they will be glad to help you. -- Coach Vance

Joke of the Month

A tourist in Vienna is going through a graveyard and all of a sudden he hears music. No one is around, so he starts searching for the source. He finally locates the origin and finds it is coming from a grave with a headstone that reads: "Ludwig van Beethoven, 1770- 1827". Then he realizes that the music is Beethoven's Ninth Symphony and it is being played backward! Puzzled, he leaves the graveyard and persuades a friend to return with him. By the time they arrive back at the grave, the music has changed. This time it is the Seventh Symphony, but like the previous piece, it is being played backwards. Curious, the men agree to consult a music scholar. When they return with the expert, the Fifth Symphony is playing, again backwards. The expert notices that the symphonies are being played in the reverse order in which they were composed, the 9th, then the 7th, then the 5th. By the next day the word has spread, and a crowd has gathered around the grave. They are all listening to the Second Symphony being played backward. Just then the graveyard's caretaker ambles up to the group. Someone in the group asks him if he has an explanation for the music. "I would have thought it was obvious," the caretaker says. "He's decomposing!"
